

How to take a photo and email it on the iPad?

1. press the red "photo booth" icon in the left upper corner
2. the screen will have a big white round button to take the picture
3. press the home button to bring you back to main screen.
4. press the "Photos" icon

5. scroll to the bottom to find the photo you just took
6. open the photo by touching it
7. at the top of the photo, you will see an icon as shown below - press it

8. select the mail icon.
9. your picture will appear in an email, ready for you to type in subject line and the email address.
10. hit send after filling those.
